Attendance by two or more representatives of your organization will foster teamwork and enhance the program's impact

ULTIMATE LEARNING SOLUTIONS

Training Course content

Listeria
Campylobacter
Salmonella
E coli STEC

Course Aims:

Deliver the latest information on established pathogens
Demonstrate methods showing how each pathogen should look on a range of selective media
Outline 'hints & tips' regarding methodology to improve testing outcomes

Learning outcomes:

Gain knowledge of appropriate methods and how to interpret the results.
Learning and understanding the different options available for confirmation testing.
Feel more informed regarding characteristics, epidemiology and tracking sources of contamination.
Incorporate this knowledge into internal training of other laboratory staff.
